Javascript, Typescript ,React,Next

May 2024 - Dec 2024

## Experience

Frontend Developer,

- I am a junior programmer.
- Even though I don't have much experience, I'm very diligent and I try to learn as much as I can.
- My memory is good, I can remember what I learned once even after a long time.
- I have high self-confidence and will soon do more experiments and practices.
- and I currently work online in a freelance group
- I am very good at networking, I can work well with a team, and I have well-developed management skills.

## Projects

Some of these projects are not all :

- <https://nsoft1.vercel.app/> : I made this site cloning version for myself for practice and it took me 3 days to do it.the code here is written using react and javascript
- <https://task-zoe7.vercel.app/> : I could finish this site in 48 hours, the code here is written using react and javascript
- <https://github.com/lkramovdev/AdminPanel-28-10-2024> :This admin panel is made for practice. You can add an organization here, edit it, and delete it. There is also pagination. This code is written using javascript react. You can delete and check this site.

## Awards & Honors

- I am currently a graduate of the Najot Training Center.

## Activities

- I am currently working as a front end developer at Usg It company. So far, we have mainly worked with simple websites. Now we want to work with websites with powerful functions and are trying to find such jobs..

## Skills & Interests

- I am very flexible, I can perform complex tasks and correct mistakes.
- and I'm very, very interested in artificial intelligence, I work with artificial intelligence as much as I can, as much as I can
- In addition to programming, I work as a video editor, SMM manager, and I have channels on Telegram. I have 4 years of experience as an admin on Telegram. In addition, I am very interested in artificial intelligence, so I make videos on Instagram, TikTok, and YouTube. I am a blogger.
